

I would just like to say how much i have praised the state of indiana
For passing their no call law. I use to get 3-4 calls a day I would
always ask to be put on their do not call list. I would call my
financial institutions and ask them not to provide any information to any 3rd
parties and after doing this for 4 years I still recieved
3-4 calls a day. Now i have peace of mind what few hours i have off work i can
enjoy spending with my family instead of haveing my privacy invaded by a rude
telemarketer. One time i hung up on one and received harrasing phone calls
where they would call and hang up on me for weeks. Please do not take what
piece of mind I have away.
